# Usman Aslam

IT Infrastructure Engineer • Microsoft 365 & Azure Specialist

Ilford, Essex, UK | aslam.usman8@gmail.com | LinkedIn | Website

## Professional Profile

Strategic IT Infrastructure Engineer with **over 12 years of experience** leading and optimising global IT infrastructure and enterprise technology environments. Experienced in delivering transformational projects including server migrations, security enhancements, cloud integrations and systems integration, contributing to streamlined operations, improved performance and cost efficiency. Proven ability to manage complex technical environments, collaborate with cross-functional teams, oversee vendor relationships and drive operational efficiency. A strong communicator and problem solver committed to delivering secure, reliable and scalable IT infrastructure solutions.

## Signature Accomplishments

- **Secure VPN access:** Streamlined secure VPN access by setting up NDES and deploying SCEP and Root CA certificates through Microsoft Intune, enhancing device security and reducing the risk of cyber threats.
- **Cloud cost optimisation:** Managed and optimised Azure resources, leading to a substantial decrease in cloud expenditure while maintaining high performance and availability of services.
- **Domain consolidation:** Orchestrated the successful consolidation of three domain controllers into a single domain using ADMT, with full synchronisation of users and groups to Microsoft Entra ID via Azure AD Connect.

## Core Competencies

- Microsoft 365 Administration
- Intune / Endpoint Manager
- Windows Server & Active Directory
- Azure & Entra ID
- Security Management
- Network Administration
- Group Policy
- ESET Protect
- PRTG Network Monitor
- Systems Integration
- Database Management
- Project Management
- Troubleshooting
- Performance Optimisation
- Training & Development

## Professional Experience

**Infrastructure Engineer** 2020 – Present

**Ikiru People Ltd.** | Hampshire, United Kingdom

- Responsible for global IT infrastructure management, Microsoft 365 administration and technical user support across the organisation.
- Led the migration of Group Policy Objects (GPOs) to Microsoft Intune and consolidated three domain controllers into a single domain using the Active Directory Migration Tool (ADMT).
- Managed Active Directory environments, including GPOs, organisational units, domain controllers, DNS and DHCP services.
- Synchronised users and groups with Microsoft Entra ID using Azure AD Connect.
- Developed and deployed Windows Autopilot, significantly reducing device deployment and rebuild times.
- Installed and maintained VMware ESXi virtual environments with Dell iSCSI SAN integration, improving storage utilisation and system performance.
- Administered Azure Storage accounts, containers and access keys for secure client data transfers, replacing traditional FTP-based processes.
- Managed and monitored Azure infrastructure costs to improve budget utilisation and cost control.
- Deployed SCEP and Root CA certificates through Microsoft Intune to strengthen device security and support FortiClient VPN connectivity.
- Transitioned update management from Azure Update Manager to Microsoft Intune and implemented Microsoft Autopatch, improving efficiency and endpoint security.
- Developed PowerShell scripts for managing AD users, groups, computers, mailbox permissions and Exchange Online calendars.
- Managed security awareness training through KnowBe4 and enrolled users in appropriate programmes.
- Conducted proactive network and infrastructure monitoring using PRTG Network Monitor.
- Used ManageEngine ServiceDesk Plus to track and resolve service requests, improving response times.

**Infrastructure Engineer** 2012 – 2019

**Dillistone Systems Ltd.** | London, United Kingdom

- Managed the migration of extensive document libraries from on-premises file servers to SharePoint Online, coordinating multiple departments on a large-scale, time-sensitive project.
- Implemented VMware virtualisation to streamline internal infrastructure, optimise resource allocation, reduce maintenance costs and improve system efficiency.
- Configured and deployed WSUS as a replacement for ManageEngine Patch Manager Plus to improve Windows update management.
- Deployed Acronis Cyber Protect to optimise the backup strategy and resolve critical backup infrastructure issues.
- Managed Cisco ASA firewall configuration backups, user access and network port settings.
- Performed backups with Symantec Backup Exec and regularly patched Windows servers in the NOC to maintain data integrity, minimise downtime and strengthen security.

**2nd Line Technical Support Engineer, Support Services** 2009 – 2012

- Provided second-line technical support for escalated issues across global offices and client environments.
- Installed, upgraded and maintained Sybase SQL CRM databases on Windows Server 2003, 2008 and 2012.
- Configured Sybase SQL database replication across multiple international offices.
- Deployed IIS and database-driven CRM solutions and provided extensive technical support to clients.
- Coordinated bug reports, feature requests and client feedback with development teams.
- Trained first-line support engineers on CRM upgrades and enhancements.

**Software Trainer / 1st Line Support Analyst** Aug 2007 – Jul 2009

- Provided first-line technical support, troubleshooting software, application and system issues.
- Delivered software training to clients and users, supporting effective adoption of Dillistone systems.

## Certifications

- **CC – Certified in Cybersecurity** – ISC2 Mar 2025 – Jun 2028
- **Microsoft 365 Certified: Administrator Expert (MS-102)** – Microsoft Mar 2024 – Mar 2028
- **Azure Administrator Associate (AZ-104)** – Microsoft Sep 2023 – Sep 2027
- **Identity and Access Administrator Associate (SC-300)** – Microsoft May 2022 – May 2027
- **Endpoint Administrator Associate (MD-100, MD-101)** – Microsoft Mar 2022 – Mar 2027
- **MCSA: Office 365** – Microsoft
- **Azure Fundamentals (AZ-900)** – Microsoft
- **AWS Certified Cloud Practitioner (CLF-C01)** – Amazon Web Services

## Education

**B.Sc. (Hons) Computing** 2003 – 2007

**University of Westminster** | London, United Kingdom

## Languages

- **English** – Reading, Writing, Speaking
- **French** – Reading, Writing, Speaking
- **Urdu** – Reading, Writing, Speaking
- **Hindi** – Speaking
- **Arabic** – Reading, Writing

## Hobbies & Interests

- **Competitive Cricket:** Represent the England Over-40 team and mentor young cricketers, building teamwork, leadership and strategic thinking.
- **Hybrid Athlete:** Regularly compete in HYROX, DEKA and OCR events and play football, maintaining fitness, endurance and mental resilience.
- **Aquascaping & Fishing:** Design and maintain aquatic landscapes with creativity and precision; enjoy recreational fishing outdoors.
- **Reading & Travel:** Keen reader and traveller with a strong interest in different countries and cultures.
